Notice of the Availability of a Report Related to Development of Amendments to the Water Quality Control Plan for the Sacramento River and San Joaquin River Basins (Basin Plan) to Control the Discharge of Pesticides

The Central Valley Regional Water Quality Control Board (Central Valley Water Board) is announcing the release of the report "Natural Streams and Aquatic Life Within the Central Valley Pesticide Basin Plan Amendment Project Area". This report outlines a process for identifying natural streams in a select area of California's Central Valley. The two objectives for the report are to 1) compile a list of natural streams using the process outlined in the report, and 2) confirm the presence of aquatic life uses in a subset of those streams using available literature and field study data.

This document is available at the Boards Website at:

http://www.waterboards.ca.gov/centralvalley/public_notices/index.html#BasinPlanning

Central Valley Water Board Staff is inviting public comments on the report by **August 31, 2007**. Comments related to technical or legal issues should be clearly supported by reference to applicable law or scientific or technical reports, where appropriate. References should include bibliographic citation and a copy of the reference if it is not publicly available.

Any questions about this information should be directed to Petra Lee at (916) 464-4603 or plee@waterboards.ca.gov, or Joe Karkoski at (916) 464-4668 or jkarkoski@waterboards.ca.gov.
